# PHLIPPIE BOSMAN

phlippie.bosman@gmail.com | github.com/phlippieb | phlippieb.bearblog.dev

## SKILLS

**Proficient:** Swift, iOS, Dart, Flutter, Bitrise, Github Actions, Firebase, Fastlane, Realm, gRPC

**Cursory professional experience:** Objective-C, Javascript, Vue, Node, PostgreSQL, Go, Ionic, Ruby, Bash scripting

**Other:** Python, Rust, R, Google Cloud Services

## EXPERIENCE

**Retro Rabbit Enterprise Services**
2016 – present | Senior software developer and team lead

Client projects:

- **Discovery Limited Health App** | Mobile technical lead on team of 8 | 2023 – 2024
    - TODO: somthing short about the project + brag about how prominent it is
    - Co-directed transition from native to Flutter-based implementation, designing architecture, planning feature roadmaps, building release pipelines, integrating with other units, and managing team efforts
    - Used: Swift, Dart, Flutter, Bitrise, Github Actions, Firebase
- **Discovery Limited Health Module** | Mobile technical lead | 2022-2023
    - Translated stakeholder requests to implementation planning in absence of proper business representation
    - Coordinated and participated in production support, addressing user issues and collaborating with other teams to drive problem resolution
    - Improved release automation to improve team output
    - Used: Swift, Bitrise, Github Actions, Firebase
- **Kalido** | iOS lead | 2016 – 2022
    - TODO: something short about the project + brag about its scope
    - TODO: my role, accomplishments

Internal contributions:

- **Knowledge Ninjas** | Committee manager | 2019 – 2023
    - The committee was formed to foster a culture of continuous learning and knowledge sharing within the company
    - Co-organised 3 internal conferences, showcasing a total of 34 speakers to over 500 attendees
    - Organised a continuous stream of technical talks and other initiatives
- **Company blog** | CHief editor | 2020 – present
    - Recruited authors internally, and reviewed, edited and published posts, so that the company website had a constant stream of interesting and relevant content at a high standard of writing
- **Mentorship program** | Pilot participant and mentor | 2023 – present
    - Participated in pilot program for official mentorship initiative, suggesting improvements and solving logistic issues for full rollout of program
    - Took on multiple mentees simultaneously, totalling 5

## EDUCATION

Master of Science (Computer Science) with distinction, University of Pretoria, South Africa, 2019
